

To whom it may concern, I as a private citizen work long hard 14hr days. When I come home I wish to enjoy my time with my wife and two small children, the last thing I want, is to be bothered by telemarketers. Calling at all hours of the evening from 6pm to as late as 11pm and awaking my children. I demand my right to privacy.

This must stop!!!

Thank you

Thomas E.Chetney
